

## Guideline for Plenary Pharmacovigilance

### Objectives of the Plenary

1. To update the public health students, practitioners and other stakeholders on the current events, developments and situation with respect to the thematic area.
2. To bring in global perspectives and insights with respect to the thematic area.

### Speakers

1. Ms. Samim Hasham, Community Pharmacist, Ontario, Canada
2. Dr Anand Eswaraiyah, Head, Clinical Development, CDMB & Regulatory Affairs
3. Dr. Ramaswamy.V, Pharmacovigilance Lead, Novartis Health Care Ltd, Hyderabad

### Guidelines

The plenary speakers are distinguished personalities in their respective areas of expertise and have been specifically hand-picked as they can contribute abundantly to the academic deliberations of the conference. The following are some of the guidelines for the plenary speakers

1. The plenary session is scheduled on 23<sup>rd</sup> Feb 2014 between 9.00 AM to 10.30 AM
2. There are 3-5 speakers in the plenary session.
3. The plenary speakers will be introduced by the Master of Ceremony and invited to the podium one by one.
4. The speaker is allowed a maximum of 20 minutes. They may use the PowerPoint presentation facility.
5. The plenary speakers are requested to kindly stick to the time strictly as a mark of respect for the other speakers and in order to allow adequate audience interactions.
6. It is preferable if the speakers hand over their presentation at least 10 minutes ahead of the start of the session to the audiovisual coordinator in the auditorium in a USB drive.
7. At the end of the plenary session, about 30 minutes of time is allotted for audience interactions and discussions. It has been repeatedly observed that the audience interactions are the most enriching part of any plenary session and add scientific credibility to the proceeding. Therefore the plenary speakers are requested to stick to time limits to enable adequate audience interactions.
